

A photograph of a woman in a black business suit standing at the head of a long conference table, pointing towards a whiteboard. Several people are seated around the table, looking towards her. The room has large windows with blinds and purple curtains. The text "CATIA V5 Mobile" is overlaid in large white letters, and "Training LAB" is overlaid in orange letters below it.

# CATIA V5 Mobile

Training LAB

**Engineering and Human Resource Departments** now have a cost effective training choice that provides an immersed, focused learning experience.

The CATIA Mobile Training LAB allows a Mecanica Solutions instructor to teach a maximum of 10 students at your location or a near-by facility, popular options can be; conference centers, executive centers or community colleges.

Our Dassault Systemes certified instructors have decades of industry experience, guaranteeing your employees the highest level of training possible.

Our LAB contains powerful 64 bit laptops with a 17 inch display, teamed with interactive iPads providing each student with high resolution color course material. This technology combination allows Mecanica Solutions to deliver an enhanced learning experience over traditional instructional methods.

Mecanica Solutions will balance the training curriculum to meet your company's diverse needs. Choose a standard course; CATIA V5 or V6 Fundamentals, Advanced Design, Manufacturing or a highly specialized course such as; Electrical Wire Routing, Generative Structural Analysis (Linear, Non-Linear), ICEM Surf or Kinematics.

Contact Mecanica Solutions to learn how you can enable your engineering and manufacturing teams, reduce your overall training budget and receive the excellence in industry leading education.

Call 1 800 567 4223 / 1-888-326-8326

Or email [info@mecanicasolutions.com](mailto:info@mecanicasolutions.com) to reserve the CATIA Mobile Training LAB for your facility.
